Profile Summary

Flutter developer with 2 years of professional experience designing and delivering cross-platform mobile applications for Android and iOS. Skilled in the full development lifecycle — from UI design and API integration to app store releases — with a strong command of BLoC, Clean Architecture, and modern Flutter tooling. Passionate about writing clean, maintainable code and consistently growing through personal projects published on the Play Store and App Store.

Technical Skills

Languages	Dart, Python, SQL, C, C++
Platforms	Android, iOS, Web
Framework & State	Flutter, BLoC, GetX, Provider, Riverpod
Architecture	Clean Architecture, MVC, OOP, Functional Programming, Error Handling
Databases & Backend	Firebase, Hive, SQLite, Supabase, REST APIs
Expertise	Flutter Animations, Local Notifications, Play Store, App Store, UI/UX
Tools	Git, GitHub Actions, Figma, VS Code, Android Studio, Xcode
CI/CD	GitHub Actions, GitHub Pages (Automated Flutter Web Deployment)

Work Experience

Mobile App Developer

May 2024 – Present

Solutions Infoway Support Services Pvt. Ltd | Kerala, India

- Built and maintained cross-platform mobile applications for Android and iOS using Flutter and Dart.
- Responsible for the full frontend — from initial setup and UI development to feature additions and bug fixes.
- Integrated REST APIs and managed complex state using the BLoC state management pattern.
- Integrated Razorpay payment gateway for handling in-app payments securely.
- Managed end-to-end app releases, updates, and version management on the Google Play Store and Apple App Store.
- Collaborated on project planning and contributed to technical decisions across the development lifecycle.

Projects

Routine — Journal & Diary App

[Play Store](#) | [GitHub](#)

Flutter, Dart, Clean Architecture, BLoC, SQLite, Supabase

- A minimal, offline-first journal and diary app built with Clean Architecture and BLoC for a scalable, maintainable codebase.
- Implemented app lock with biometric authentication to keep personal entries private and secure.
- Rich personalization system with customizable themes, fonts, and backgrounds; users can add sticky images and stickers via a gesture-based overlay.
- SQLite used as the primary local database; Supabase integrated solely for fetching background presets and sticker assets.

Pursuit — Habit Tracker

[Play Store](#) | [GitHub](#)

Flutter, Dart, Clean Architecture, BLoC, SQLite, FL Chart, Local Notifications

- A minimal, focused habit tracker designed for users who prefer simplicity, featuring a clean and distraction-free UI.
- Architected with Clean Architecture and BLoC for a maintainable, testable, and well-structured codebase.
- FL Chart integration to display visual progress for each habit, giving users a clear picture of their consistency over time.
- Local notifications implemented to remind users of their habits at custom scheduled times.
- Streak tracking and partial progress logging to support flexible habit completion.

Ddata — DigiLife App

[Play Store](#) | [App Store](#)

Flutter, Dart, BLoC, REST APIs, MVC Architecture

- A platform for digital business cards, brand coupons, and web tools, built with MVC architecture.
- Deployed and live on both Google Play Store and Apple App Store.

Edu Plan — School Management App

[Amazon Store](#) | [GitHub](#)

Flutter, Dart, BLoC, Firebase, Razorpay

- School management platform published on the Amazon App Store.
- Includes Firebase-powered real-time chat and Razorpay payment gateway integration.

Personal Portfolio — Flutter Web

[Live](#) | [GitHub](#)

Flutter Web, GitHub Actions, GitHub Pages, CI/CD

- Built a personal portfolio using Flutter Web and deployed it on GitHub Pages.
- Set up a GitHub Actions CI/CD pipeline that automatically builds and deploys the site on every commit push to the main branch.

Education

Mobile App Development using Flutter

2023 – 2024

Calicut, Kerala

Diploma in Electronics and Communication Engineering

2019 – 2022

KMCT Polytechnic College, Calicut

CGPA: 8.11
